WORK EXPERIENCE

► Freelance Video Editor & Cinematographer

Self-Employed | 2022 – Present

- Produced promotional videos, podcast edits, cinematic reels, and short-form social media content for brands and clients.
- Managed complete video production workflows including shooting, editing, color grading, sound design, and final delivery.
- Edited content using Adobe Premiere Pro and CapCut Pro with transitions, typography animation, subtitles, and music synchronization.
- Created platform-optimized content for YouTube, Instagram Reels, Shorts, and LinkedIn to improve audience engagement.
- Edited long-form podcast content with multi-camera cuts, clean pacing, and audio balancing.
- Created trending typography-based informative reels using dynamic captions and fast-paced storytelling.
- Worked with hotels, cafés, corporate clients, and college events for promotional and event-based content.
- Managed footage, project files, backups, and exports for efficient workflow management.

- Credit & Risk Analysis

Conducted client credit limit reviews and supported financial exposure assessments to assist in customer credit risk evaluation.

- Job Lifecycle Management

Managed end-to-end lifecycle activities for 50+ job orders including initiation, costing documentation, tracking, and financial closure.

Improved process compliance and financial data consistency in Maconomy ERP through accurate documentation and workflow coordination.

- Data Reconciliation & Financial Operations

Reconciled over two years of TBL (Travel, Boarding & Logistics) financial records, resolving billing mismatches and improving data accuracy.

Collaborated with finance managers and cross-functional teams to validate transactions and resolve operational discrepancies.

- ERP & Reporting

Utilized Maconomy ERP for financial data management, reporting, job costing, and operational tracking to support business decision-making.
